

play activities

durable. dependable.

play activities

Designed for children aged two to eight. Play Activities engage fine-motor skills and encourage quiet play.

Play Activities provide hands on manipulative play. There are no messes to clean. There are no loose parts or pieces to go missing. Play activities can be installed by themselves, or can be included as part of a themed play panel system.

Designed and manufactured in North America.

play modules

Rectangular activity modules provide a variety of fine motor skill play. Blast off through space, travel through silly towns, and make funny faces. Play Activities invite children to be curious and develop their imaginations.

types

We produce two different frame types that permit play modules to be installed into a variety of applications.

AM type

AM type Play Modules can be installed into most of our Play Systems, and are interchangeable. AM type Play Modules can be installed on a wall using a wall-mount housing.

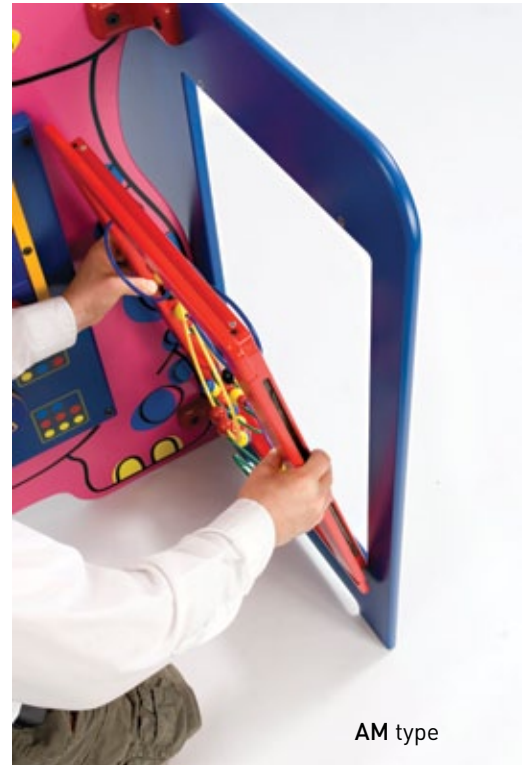

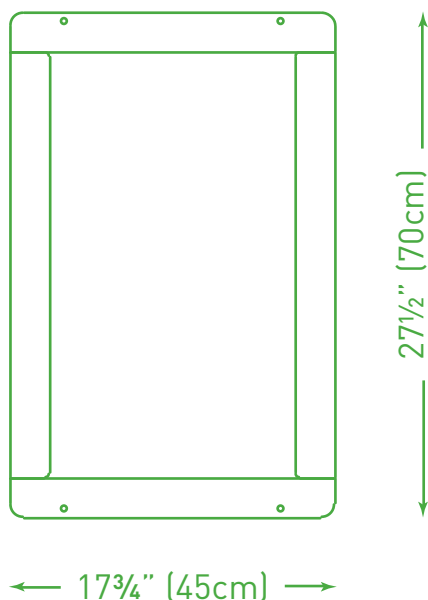

AW type

AW type Play Modules are for wall-mount applications only and can be affixed directly to a wall without the help of a panel system or wall-mount housing.

Hardware is supplied for both solid wall and hollow wall applications.

size

Play Modules are 17 $\frac{3}{4}$ " wide (45cm) x 27 $\frac{1}{2}$ " tall (70cm) and sit proud from the wall up to 2" (5cm), depending on the model.

wall-mount housings

Not all Activity Modules can be fabricated with AW type frames. Activity Modules that are not available in AW type can be mounted to the wall with the help of a wall-mount 'housing'.

single housing fp9501

Permits 1 AM type module to be affixed to the wall. Single housings are 17 $\frac{3}{4}$ " wide (45cm) x 27 $\frac{3}{4}$ " tall (71cm) and sit proud from the wall up to 2 $\frac{1}{2}$ " (6cm).

triple housing fp9601

Permits 3 AM type module modules be affixed to the wall. Triple housings are 57" wide (145cm) x 29 $\frac{1}{2}$ " tall (75cm) and sit proud from the wall up to 2 $\frac{1}{2}$ " (6cm).

frame colours

Play Modules come with your choice of red or yellow frames. Designer colours and clear wood finishes are available. Please contact us for details.

single housing fp9501

triple housing fp9601

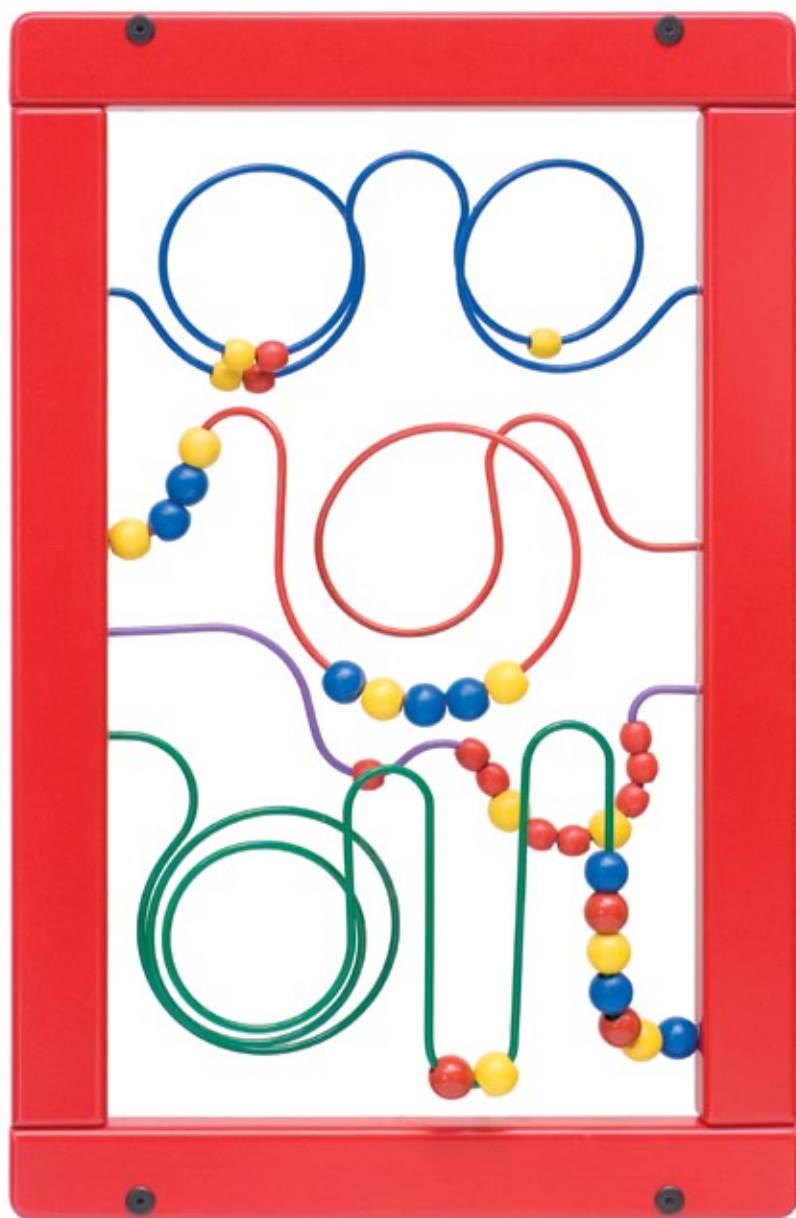

keebeads maze

am1

Up, and down, and around. Move the beads along uniquely coloured wires. A great hands-on activity! This play module can be mounted into any play system. Available only in an AM type frame style, a wall-mount housing is required to attach this activity directly to the wall.

monster blox

am3

Not really scary at all! Flip flop the funny monster blocks and create silly looking monsters. This activity helps young readers to develop matching and patterning skills, a necessary pre-cursor to reading. This play module can be mounted into any play system. Available only in an AM type frame style, a wall-mount housing is required to attach this activity directly to the wall.

play activities

|p 1.800.563.7740 | email info@keebee.com | www.keebee.com

distorting mirror

am4 aw4

This timeless activity is a hit with kids of all ages! The wave mirror creates fun distortion for lots of laughs. A great activity for developing self awareness. This play module is available in both AM and AW styles.

play activities

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

space trek

am5 aw5

Children move the space balls through the wormhole tracks and turn stations, seeking 'out of this world' and interstellar destinations. A great activity to develop hand-eye coordination. This play module is available in both AM and AW styles

play activities

|p 1.800.563.7740 | email info@keebee.com | www.keebee.com

travel town

am6 aw6

Children drive in their spindle cars through the various lanes and alleys of this busy little town. A great game for imaginary play. This play module is available in both AM and AW styles.

little critters blox

am12

Another variation of flip-flop matching blox, children are tasked with matching the pairs of these very cute 'Little Critters'. This activity develops memory skills, as well as matching and patterning skills required for reading. This play module can be mounted into any play system. Available only in an AM type frame style, a wall-mount housing is required to attach this activity directly to the wall.

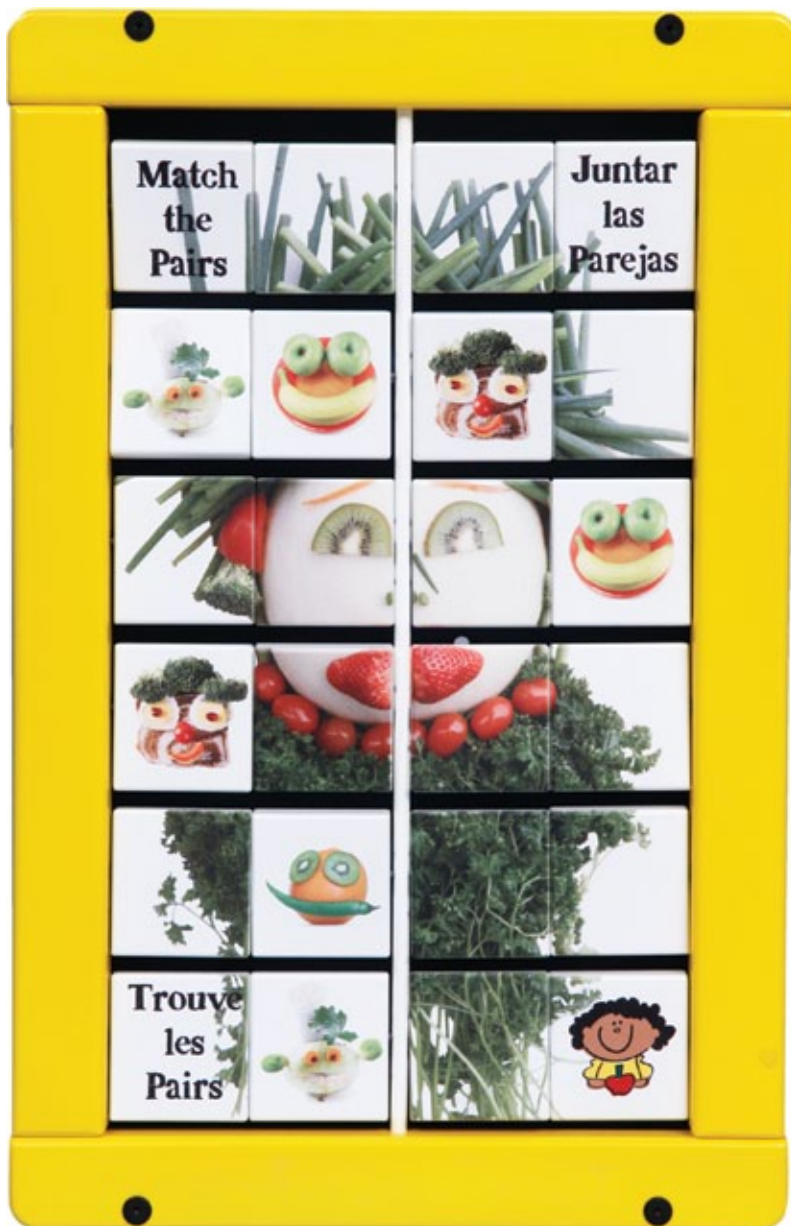

veggie blox

am14

Flip-Flop the blocks to match pairs of wacky veggie characters. This activity helps young readers develop matching and patterning skills and reminds us all that veggies can be fun. This play module can be mounted into any play system. Available only in an AM type frame style, a wall-mount housing is required to attach this activity directly to the wall.

robot factory

am23 aw23

Big gears, small gears, spindle gears, line gears... Moving and fixed gears all mesh to create a variety of cause and effect action. This play module is available in both AM and AW styles.

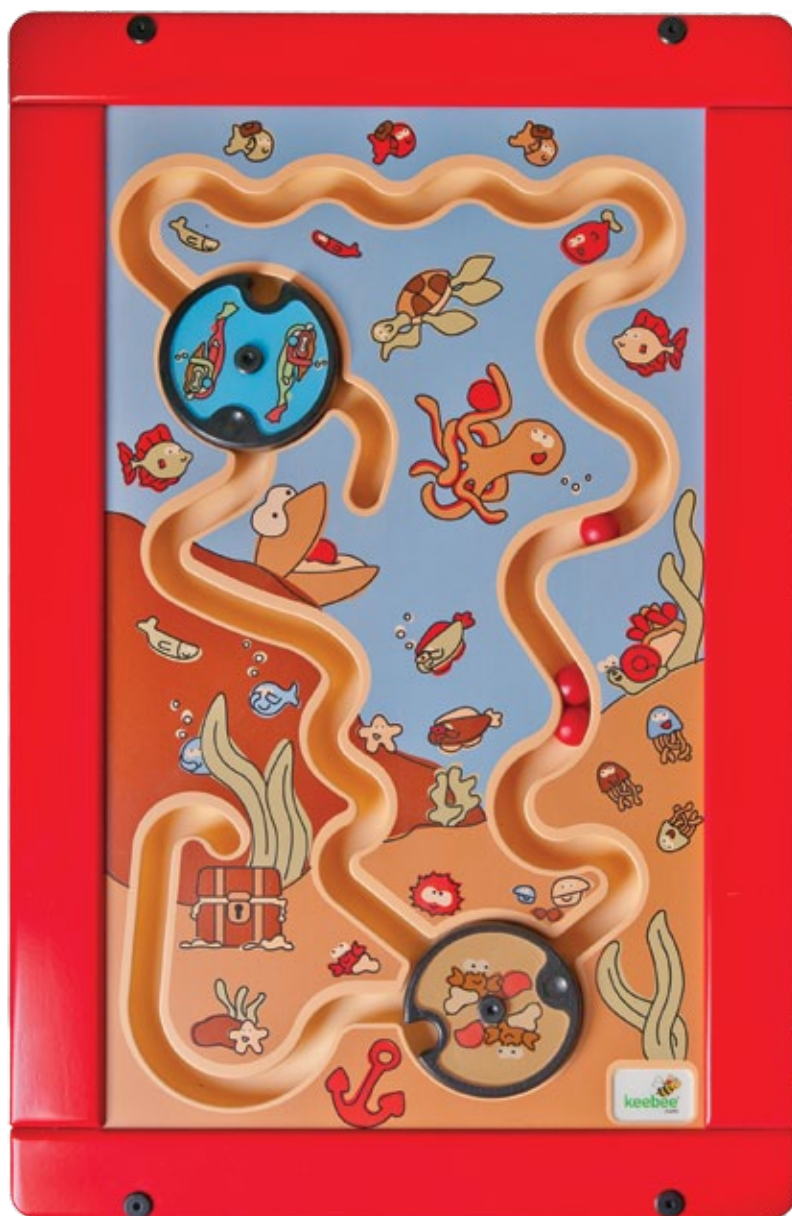

play activities

|p 1.800.563.7740 | email info@keebee.com | www.keebee.com

under the sea

am22 aw22

Children imagine that they swim with the aquatic life that lives in the sea, seeking fun and treasure! Turn stations, tracks, and balls, this underwater adventure nurtures imagination and helps to develop hand-eye coordination. Under The Sea is available in both AM and AW frame styles.

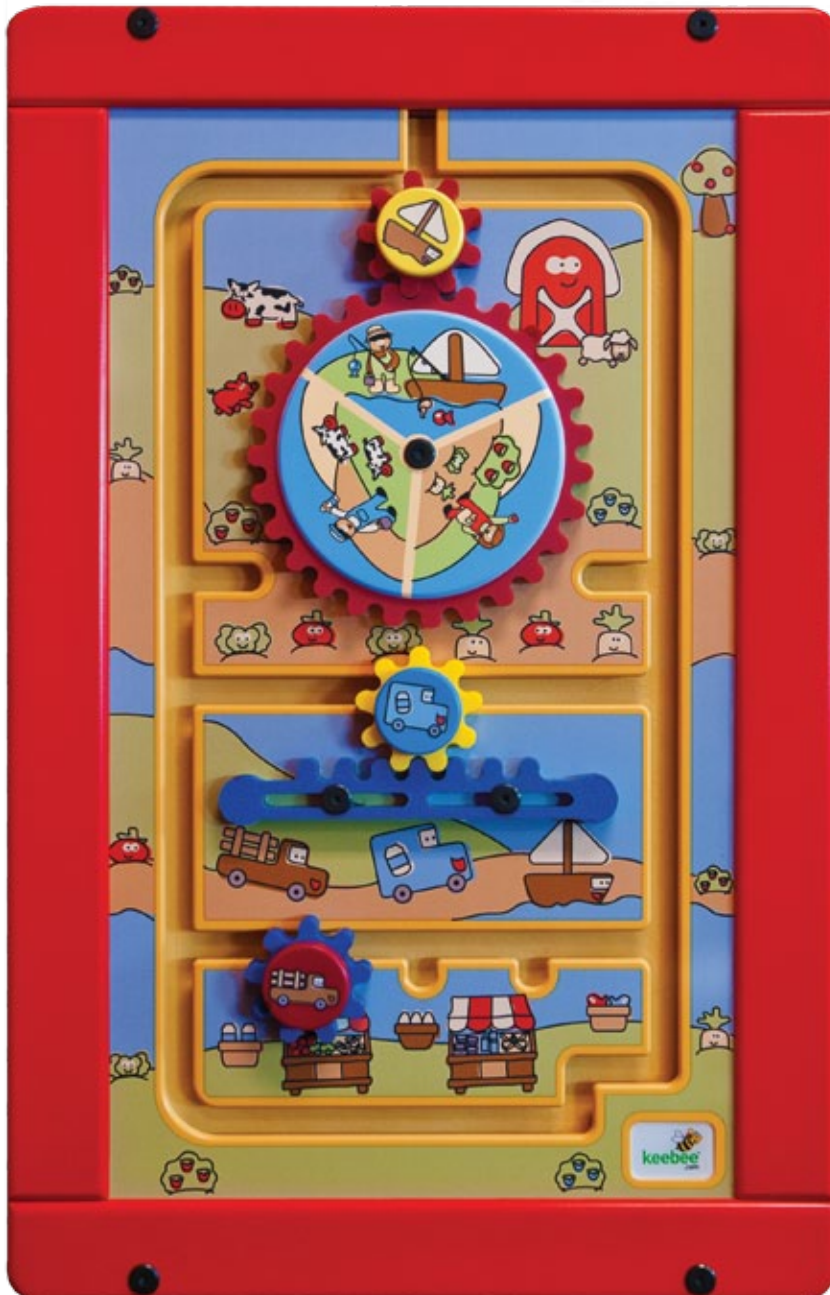

to the market

am21 aw21

Where does our food come from? This moving gear gears activity explores cause and effect motion and introduces children to the concept of where our food comes from. To the Market is available in both AM and AW frame styles.

tic-tac-toe

am24 aw24

Keebee's take on a classic game. Spin to complete a puzzle or play the traditional version and make matching rows. Tried and true, Tic Tac Toe is certainly a fan favorite. This play module is available in both AM and AW styles.

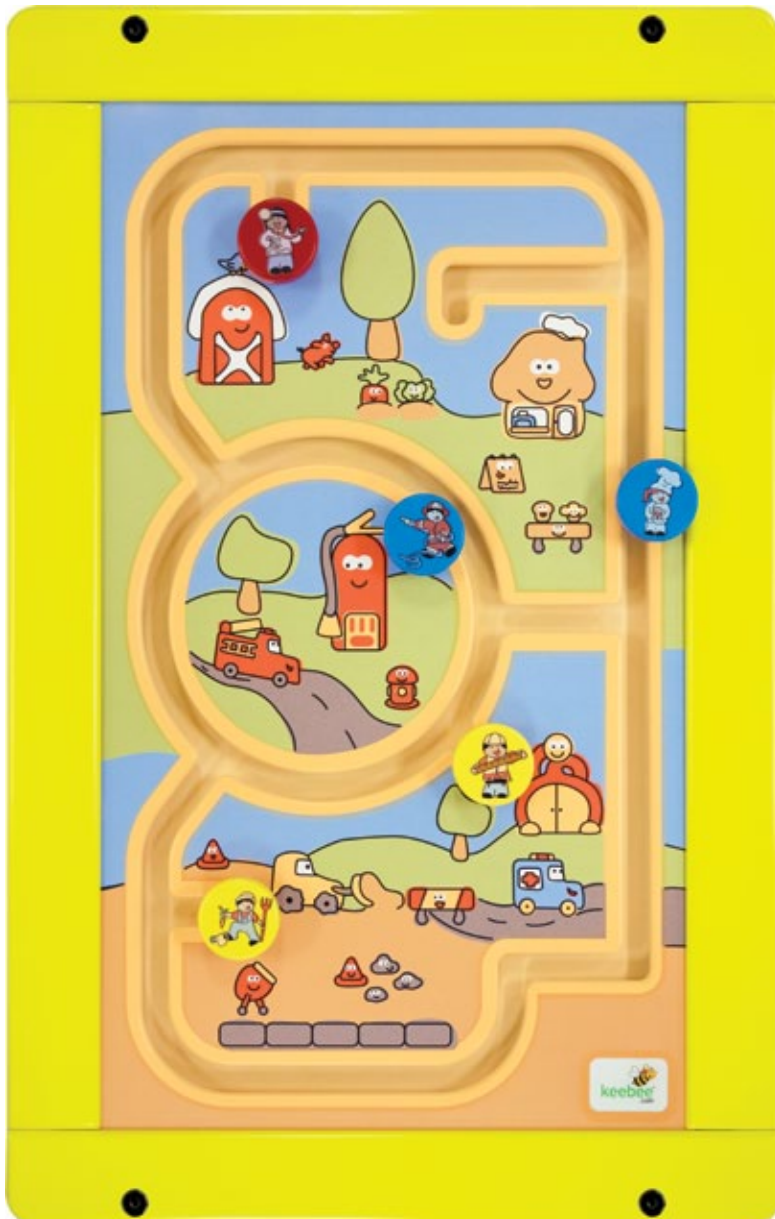

play activities

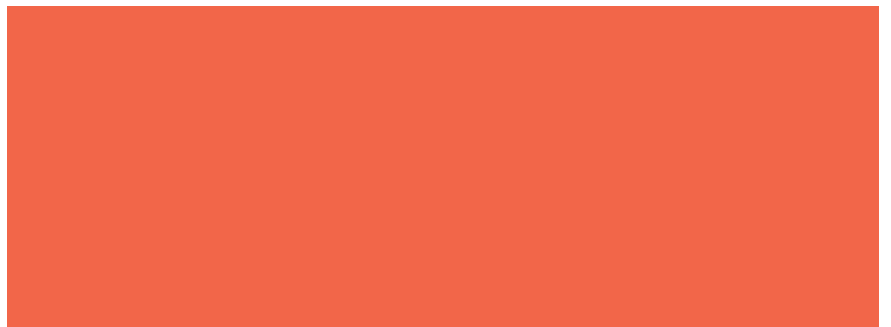

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

career town

am25 aw25

This town is busy and everyone is hard at work. Move the printed spindles along the tracks to stop by the fire station, bakery, farm, construction site, or hospital and see what folks are up to. A great game for imaginary play. This play module is available in both AM and AW styles.

round-abouts

Let imaginations spin 'round! Game function is created by turning the Round-about. Just like Play Modules, Round-abouts go anywhere, provide safe and quiet play, and are rugged and dependable.

frame colours

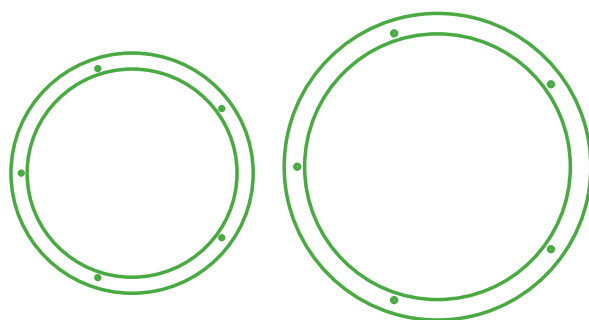

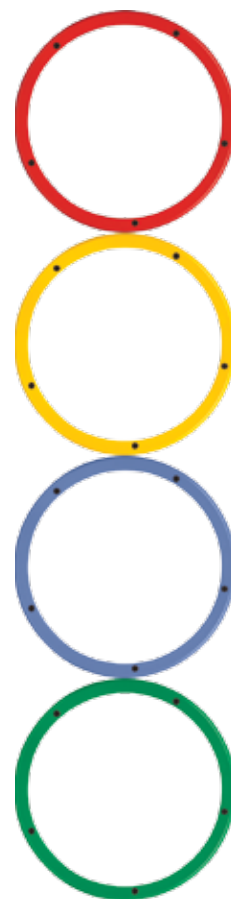

Red is the standard frame colour for Round-abouts. Custom designer colours are available. Please contact us for details.

size

Round-abouts are available in two sizes; a larger 24" (60cm) diameter, and a 17" (43cm) version for smaller hands. Both versions sit 3" (7cm) proud from the wall.

mounting

Round-abouts can be installed individually to the wall with a wall-mounting plate. Either size can be installed onto select Play Systems.

17" (43cm)

24" (60cm)

play activities

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

ladybug lane

ra0160 24" (60cm)

Rotate this Round-about maze to help the ladybug find her way home. Visit insect friends in their homes and discover what silly things are happening along the way.

play activities

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

mathbeads

ra0260 24" (60cm)

Turn the spinner to determine what you seek. Next, rotate the wheel and 'sift through' beads to find the correct number of flowers, stars, butterflies, or hearts. A great game for reinforcing number and sequencing skills.

soccer

ra0360 24" (60cm)

GOAL!! Rotate the Round-about to move the soccer ball and score a goal while dodging opponent players. Great for developing concentration skills.

play activities

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

treasure island

ra0460 24" (60cm)

'X' marks the spot: a classic treasure hunt. Only under the water will we find clues to unlock the buried treasure! A fun spin and find game that develops matching and patterning skills required for reading.

play activities

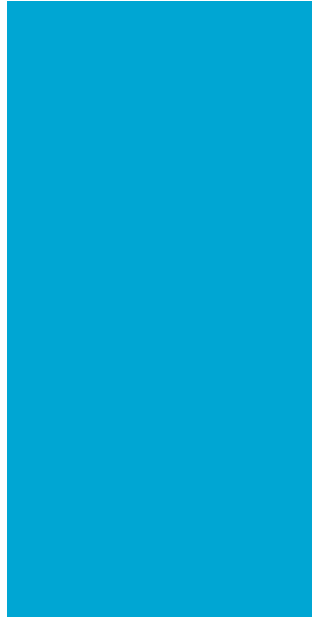

|p 1.800.563.7740 | email info@keebee.com | www.keebee.com

toddler bead reveal

ra0860 24"

Beads travel from one chamber to another as children rotate this activity, revealing fun and appropriate images for toddlers in each of the four chambers.

four glasses of water

ra3143 17" (43cm)

Our bodies are 60% water. Children are tasked to spin the game and fill the glasses with 'beads of water'. This activity reinforces the message that it's healthy to drink four glasses of water every day.

bead reveal

ra5243 17" (43cm)

Exploring changes in nature! Just like an hourglass, beads travel from one chamber to another as children rotate the activity, revealing images that help youngsters make the connection between butterflies and caterpillars.

make healthy choices

ra3443 17" (43cm)

Emphasize healthy habits. By spinning the Round-about and turning the spinner, children are invited to sort various 'healthy choice' images into four different chambers.

play activities

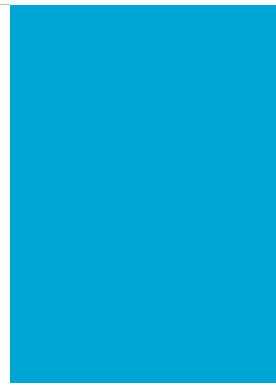

| p 1.800.563.7740 | email info@keebee.com | www.keebee.com

farm to plate

ra3543 17" (43cm)

Where does food come from? From the farm, to the market, to the kitchen table. Children are invited to turn and match images that help to explain food's journey from 'farm to plate'.

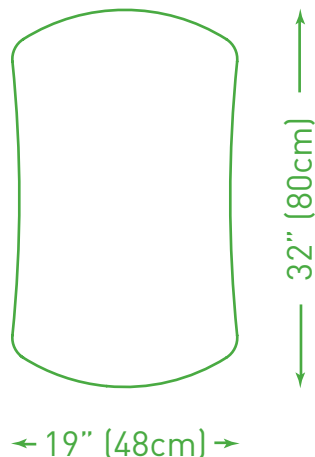

gameboards

New to the Keebee Play line-up, frameless Gameboards offer a larger 'play palette' than our other play activities. Designed and intended for children two to eight years of age, Gameboards can be mounted onto select Play Systems or mounted directly to a wall with the hardware supplied. As with all Keebee Play activities, Gameboards facilitate a quiet and passive style of play. There are no loose pieces to go missing! There are no messes to clean up.

fruits & veggies

gb31

Eat healthy! Children in this age group require five servings of fruits and vegetables every day. Children have fun with the 'eating a rainbow of color' message by manipulating the 'fruit and veggie' gear spindles into their picnic baskets.

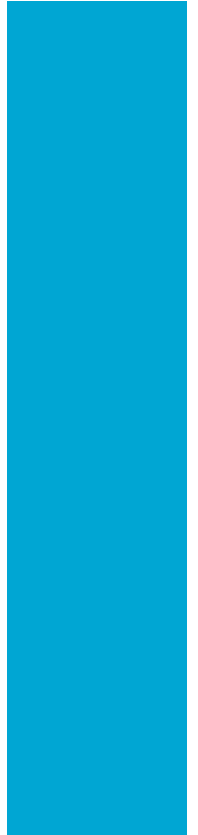

be active

gb35

Be active: it's a universal message. Engage children in an exploration of healthy activities as they travel around the globe.

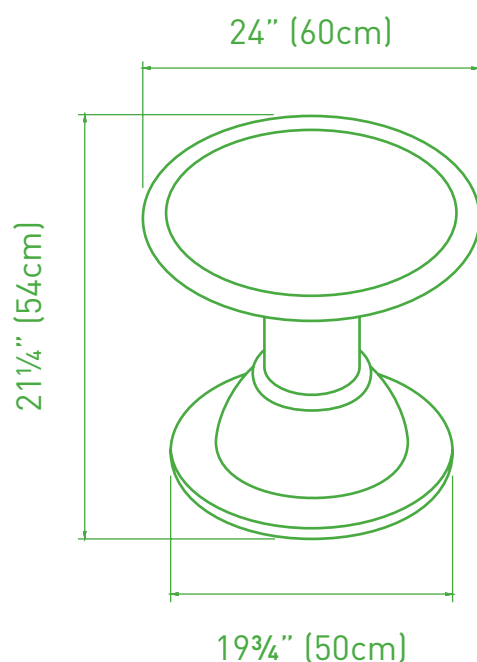

wobbly pods

A floor standing activity for kids of all ages. Twist, turn, and wobble balls down the lanes and through the tracks. Not as easy as it may appear, Wobbly Pod games help children develop concentration and fine motor skills, in a very playful way! As with all other Keebee Play Items, Wobbly Pods encourage quiet play. There are no loose pieces to go missing! There is no running, shouting or climbing!

size

Wobbly Pods stand 22" (56cm) tall. The play table top is 24" (60cm) in diameter.

divot maze

sst131

An amazing maze game! Start at the edge and wobble your way to the center. Children require all of their concentration to avoid the dead-end trails.

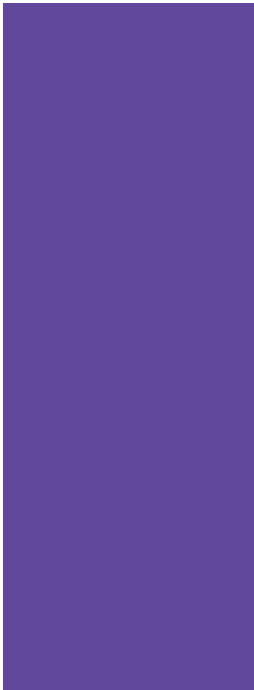

land the airplane

sst130

Tip, twist and turn the play table top to bring these planes safely to the ground. Once you have landed one, there are two more to go – each harder than the other.

touchscreen interactives

Robust and rugged, Keebee's Touchscreen Interactives are designed for commercial environments. Engage children three to twelve years old in a whimsical, interactive play experience.

technical requirements & system specifications

Touchscreen Interactive systems do not require a data (internet) connection. There are never updates or licensing fees. Every system comes pre-loaded with two software game suites and the operating system. It's simple, just plug-in and play!

Keebee's Touchscreen Interactive systems are built to last! With longevity in mind, a mini-PC, with no moving or wearing parts, creates the foundation for all our Interactives. The 17" Elo Touchscreen monitor is tough and scratch resistant, and is intended for use in commercial applications. Systems plug into 110V wall outlet and consume less than 10w of power. Adjusting the volume is easy making Touchscreen Interactives suitable for any environment.

warranty

Every Touchscreen Interactive comes with a two year warranty on all parts, from the date of purchase. For more information about Keebee's warranty policy, visit www.keebee.com.

7.1 software information

Interactive from first 'touch'. ITEMS™ play software is clear, beautifully presented, and free from all violence. Children can choose to interact with the games in English, Spanish or French. Games are played at the child's pace and are designed for quiet environments.

hello, nice to see you!

A friendly greeting that invites kid's to select a language and a game.

finger painting

Young artists can let their creativity flourish using the interactive finger painting game. Choose from a variety of paint colours and brush sizes. Imagination is the only limit.

colouring, fill in the blank

Choose between five difference pictures in the electronic colouring book. Select a colour to fill in the spaces.

spot the difference

What's wrong with this picture? Spot 6 differences in each of the five delightful pictures. Sherlock, look out!

dress up

This game is wild n' wacky. Why is grandpa purple? And what's that knight doing on a witch's broom? Scroll to choose silly matches then use the colour pallet to fill in the funny characters.

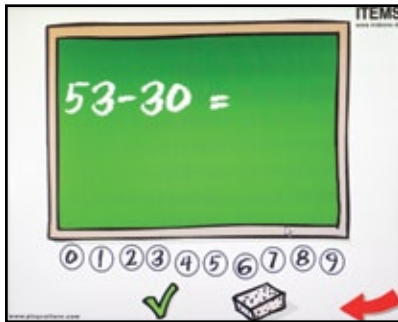

memory, concentration

Concentrate! This is a game of memory. Play against the computer, taking turns to select tiles and match pairs. Choose between five differently themed tile sets that are randomly scrambled before each game.

C.1 software information

Designed for an older age range IITEMS™ C.1 play software is clear, beautifully presented, and free from all violence. Children can choose to interact with the games in English, Spanish or French. Games are played at the child's pace and are designed for quiet environments.

fun with numbers

Little number crunchers love this game. Get instant feedback from the computer. Arithmetic made fun. .

finger painting

Young artists can let their creativity flow using the interactive finger painting game. Choose from a variety of paint colours and brush sizes. Imagination is the only limit.

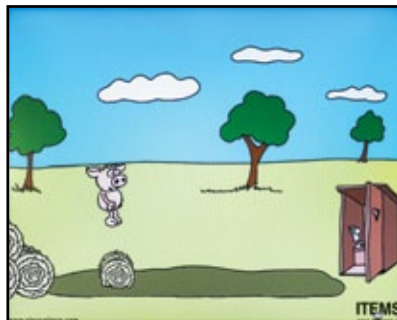

fun with shapes

This is an ancient game of logic. Choose between two levels of difficulty and arrange nine shaped pieces into different image configurations.

jigsaw puzzle

It's a classic. Choose between five different pictures, each with two levels of difficulty. Count to five to study the picture, and then complete the puzzle by dragging the scrambled pieces across the screen to their correct locations.

hop across

For once, it's not the chicken crossing the road! Help three different characters make their way across the screen to safety. Bounce a moose on a log, fly a magic carpet, or roll a bale of hay under a pig. A charming game for practicing dexterity and hand-eye coordination.

memory, concentration

Concentrate! This is a game of memory. Play against the computer, taking turns to select tiles and match pairs. Six themed tile sets with two levels of difficulty mean endless fun. Tiles are randomly scrambled before each game.

assembly and installation

activities

Play Activities are shipped assembled and ready to install. Mounting hardware for both solid wood wall and hollow/gypsum wall application are included. Please call customer service for help when mounting onto other atypical types of wall surfaces.

systems

Play Systems are shipped as modular components and require assembly. Systems come complete with assembly instructions, hardware and reliable customer support.

safety and warranty

Keebee products are tested to and are compliant with the CPSIA act 2008, 16CFR, ASTM F963, and CSA-Z614.

Our warranty covers defects in workmanship and materials and is limited to the replacement of any item or component, should breakage occur in the specified warranty period.

Our warranty does not include damage such as scratching, gouging or chipping to the painted or printed surfaces caused or inflicted by sharp objects, improper handling or improper installation. Our warranty does not cover damage caused by abuse, misuse or acts of vandalism.

Play Activities: two years from date of purchase.

Play Systems: two years from date of purchase.

Hardware: for life. Limited to the original purchaser, we will replace any bracket, nut or bolt that goes missing for as long as the product in use.

maintenance & cleaning

Play activities are designed and tested to be played with by children one to eight years of age. Play activities are installed in public areas and therefore exposed to acts of misuse or vandalism. Broken or damaged play activities may expose children to unsafe situations. It is important that play activities are inspected regularly. A visual inspection should be included your regular cleaning routine. **Immediately remove or repair damaged play activities.**

Call 1.800.563.7740 for support and service.

Cleaning refers to washing and disinfecting. Play products require washing and disinfecting regularly and as required by the frequency of use. Include cleaning Keebee Play products in the cleaning routine of your general facility.

Play products can be washed to remove grim, dirt, dust, grease and messy handprints with any non-abrasive, all-purpose cleaner, such as vinegar and water, Windex, Mr. Clean, etc. Solvent spirits may be used to clean greasy areas, pen or crayon marks, and other problem areas. Ensure to wash the products afterwards with clean water to remove residue solvent.

Play products should be disinfected after washing to kill micro-organisms that live on the product. Virox, or any other alcohol based disinfectants, may be used for disinfecting. Disinfecting agents may also be included in many all-purpose cleaners. Be sure to read the label to ensure that appropriate disinfectants are included in the cleaner you are using.

Do not use bleach to wash or disinfect. Do not use abrasive cleaners. Do not use boiling water or steam.
